PPIA DISCLAIMER – The personal information provided on this form is collected by *Griffith City Council* for the purposes of processing this application by Council employees and other authorised persons. This form will be stored within Council's record management system and may be available for public access and/or disclosure under various NSW Government legislation.

(if an alternative solution, to meet the performance requirements, is to be used)

- d) a description of any accredited building product or system sought to be relied on for the purposes of section 4.15(4) of the *Environmental Planning and Assessment Act 1979* EP&A Act)\*
- e) copies of any compliance certificate to be relied on
- f) if the development involves building work to alter, expand or rebuild an existing building, a scaled plan of the existing building
- g) if a BASIX certificate has been obtained for the development, such others matters as the BASIX certificate requires to be included in the plans and specifications.

	•	requires to be included in the plans and specifications.
buildin	g product or	Act provides that the consent authority must not refuse to grant consent to development on the ground that any system relating to the development does not comply with the requirement of the Building Code of Australia if the building is accredited in respect of that requirement in accordance with the EP&A Regulation 2000.
3.2	house	the development involve building work (other than work in relation to a dwelling- or a building or structure that is ancillary to a dwelling-house or work that relates of fire link conversion)?  Yes  No
If Yes	– provide	:
	a) b)	A list of any existing fire safety measures provided in relation to the land or any existing building on the land A list of the proposed fire safety measures to be provided in relation to the land and any building on the land as a consequence of the building work
3.3	Does	the development involve an alternative solution under the Building Code of
	Austr	alia ("BCA") in respect of a fire safety requirement?  Yes  No
If Yes	– provide	:
	Either or accreditation	both of the following from a "fire safety engineer" (a private accredited certifier holding Category C10 on):
	a)	A compliance certificate (as referred to in s.6.4(a) EP&A Act) that certifies that the alternative solution complies with the relevant performance requirements of the BCA.
	b)	A written report that includes a statement that the alternative solution complies with the relevant requirements of the BCA.
Note:	a) b)	requirement only applies to building work in respect of:  A class 9a building that is proposed to have a total floor area of 2000m² or more  Any building (other than a class 9a building) that is proposed to have:  (i) a fire compartment with a total floor area of more than 2000m² or  (ii) a total floor area of more than 6000m² es an alternative solution under the BCA in respect of the requirements set out in EP1.4, EP2.1, EP2.2, DP4 and DP5 in f the BCA.
3.4	applio	the application relate to a residential flat development for which the development eation was required under Clause 50(1A) of the EP&A Regulation to be accompanied lesign verification from a qualified designer?  Yes  No
If Yes	– provide	
develo	opment for	a qualified designer which verifies that the plans and specifications achieve or improve the design quality of the which development consent was granted, having regard to the design quality principles set out in Part 2 of State lanning Policy No. 65: Design Quality of Residential Flat Development (SEPP 65)
Note:	need not ■ re	velopment application was also required to be accompanied by a BASIX certificate with respect to any building, the statement verify the design quality principles set out in SEPP 65 to the extent to which they aim to educe consumption of mains-supplied potable water, or reduce emissions of greenhouse gases, in the building or in the use of the land that it is built on, or
		more the thermal performance of the building

## Colfith city council

### (SD-FO-241) APPLICATION FOR A CONSTRUCTION CERTIFICATE

PPIA DISCLAIMER – The personal information provided on this form is collected by *Griffith City Council* for the purposes of processing this application by Council employees and other authorised persons. This form will be stored within Council's record management system and may be available for public access and/or disclosure under various NSW Government legislation.

### SECTION I. Authority to enter and inspect land

A certifying authority must not issue a construction certificate for development on a site which affects an existing building unless the certifying authority, or an accredited certifier, council or consent authority on behalf of the certifying authority, has carried out an inspection of the site of the development.

If the applicant is the owner of the land, by signing this application authority is given to the certifying authority, or an accredited certifier, council or consent authority, to enter the subject property at any reasonable time for the purpose of carrying out an inspection in connection with the assessment of this Application. The Applicant undertakes to take all necessary steps make access available to the property to enable the inspection to be carried out.

If the applicant is not the owner of the land, the owner(s) must sign the statement.

As the owner(s) of the above property, I/we consent to the certifying authority, or an accredited certifier, council or consent authority, to enter the subject property at any reasonable time for the purpose of carrying out an inspection in connection with the assessment of this application. I/we undertake to take all necessary steps make access available to the property to enable the inspection to be carried out.
