EXECUTIVE SUMMARY

Olympic Park is a small area of land, which is well located amidst the significant business, social and cultural precincts of the City of Griffith in south western New South Wales. Currently managed as park land, it represents considerable value to any creative plans to cater for and add context to the needs of a flourishing community, integral to its future health and lifestyle.

Olympic Park is Community land on a Crown reserve owned by the State Government and managed by Griffith City Council for the benefit of the community.

The intention of this Plan of Management is to provide Council with a framework that enables decisions in regard to part of Olympic Park, to be made on an informed, consistent and equitable basis. The Plan meets all of the requirements of the *Local Government Act 1993* as amended by the *Local Government Amendment (Community Land Management) Act 1998*.

The land at Olympic Park is categorised in this plan of management, as:

- General Community Use

A description of this land as it exists at the Reserve is provided. The current use patterns, built and natural assets and their condition, emerging trends, constraints and influences, have been considered in this Plan of Management. Appropriate management objectives and actions, as well as an effective management structure and communication strategy for successful implementation are key outcomes provided by the Plan.

This Plan proposes the construction of a new Multi-Purpose Centre to facilitate improved and coordinated community services in mental health, disability support, education and other much needed support for Griffith.

This Plan is presented in two principal sections being the site description (A), which describes the constraints of the site, and the fundamental components of the Plan (B), which describes what is planned for the site's future.

PART A – THE SITE

1 INTRODUCTION

This Plan of Management is for part of Olympic Park in Griffith.

Olympic Park lies in the heart of the City of Griffith, which is located in the rural and irrigable landscape of the Riverina area, of New South Wales, 560 km south west of Sydney and 450 km north of Melbourne. Proclaimed as a city in 1987, Griffith has a population of approximately 18,000 (excluding surrounding areas), and is the regional service centre for the Murrumbidgee Irrigation Area, a significant food bowl for the production of rice, citrus, stone fruits and many other high value crops.

A unique feature of the City of Griffith is that it was designed by the American architect Walter Burley Griffin who also designed Canberra and nearby Leeton, with uniquely styled geometric street patterns and broad radiating avenues. These attractive designs are well featured close to Olympic Park in the precincts bounded by Kookora Street to the west, and Palla Street and Binya Avenue to the immediate north of the Reserve.

Olympic Park is well located in the heart of Griffith City (see Figure 1 locality map). It is bounded by Olympic Street on its southern boundary and a rail corridor to its north. A blind access road, Ulong Lane, runs along the Reserve's eastern boundary off Olympic Street, and on its west, the Reserve is bounded by the continuation of park land.

Figure 1 - Locality Diagram

Notable, is the easy walking access from the Reserve to a number of significant commercial, recreational and social facilities. East of the Reserve is the rail station, the public library, post office, the Visitor Centre, banking and an accommodation precinct; to the west, the Griffith Regional Theatre and city garden/ park precinct; and to the north west, the Aquatic Leisure Centre, a medical centre and churches.

Olympic Park lies within a reserve (Reserve 85064) for *Public Recreation* notified on 23 October 1964 with additional purpose of *Community Purposes* notified on 15 July 2011. Olympic Park Reserve is currently used and managed as a park. Reserve 85064 also includes Banna Park to the west, between Olympic Street and Banna Avenue.

This Plan of Management (PoM) has been prepared in order to achieve a balanced, responsible and ecologically sustainable use of the land and to ensure that it addresses the needs of the local neighbourhood, the broader community, and the environment. It has been prepared to meet the requirements of the *Local Government Act* (LGA), as amended by the *Local Government Amendment (Community Land Management) Act 1998*.

2 LEGAL FRAMEWORK

2.1 Public Land

This land, briefly described above, is Crown land managed by Griffith City Council.

Crown land is owned by the State of New South Wales for the benefit of all persons. Local Government Authorities manage Crown land on behalf of the State, as Crown Land Managers, under Division 3.4 of the *Crown Land Management Act 2016* (CLMA). The CLMA provides that Council should manage the land under the *Local Government Act 1993* (LGA).

Under the LGA, all public lands must be classified as either Community, or Operational land. Reserve 85064, shown in Figure 2 has been classified 'Community' land.

Figure 2 - Land within Reserve 85064

The land included in this Plan of Management is edged in red

The purpose of the classification is to clearly delineate which land should be kept for use by the general public (Community) and which land need not be kept for that purpose (Operational). The major consequence of the classification is that it determines the ease or difficulty by which the land may be alienated by sale, lease or other means. Community land would ordinarily comprise land such as a sportsground, hall, public park etc.,¹ and Operational land would consist of land which facilitates carrying out of a public service, such as works depots, or land held as a temporary asset or investment. Community land:

¹ See the note to Chapter 6, Part 2 of the *Local Government Act 1993*.

- cannot be sold
- cannot be leased, licensed or any other estate granted over the land for more than 21 years
- must have a PoM prepared for it.

2.2 Plans of Management

The LGA requires that Council prepare a Plan of Management (PoM) in conjunction with the community to identify the important features of the land, clarify how Council will manage the land and how the land may be used or developed. Until a PoM for Community Land is adopted, the nature and use of the land cannot be changed. To change this, the Plan must be revised.

The *Crown Land Management Act 2016* also requires that PoMs are to be created over Crown land which is managed by local government as Crown land manager. For the purposes of Section 3.23 this PoM is a first plan.

Council will undertake the required process as per Section 36 of the LGA and Section 3.23 of the CLMA for this PoM.

Specifically, the LGA requires that a Plan of Management must identify:

- Category of the land.
- Objectives and performance targets of the plan with respect to the land.
- Means by which the council proposes to achieve the Plan's objectives and performance targets.
- Manner in which the council proposes to assess the objectives and performance targets.
- Describe the condition of the land, and any buildings or other improvements on the land, as at the adoption of the Plan.
- Describe the use of the land and any such buildings or improvements as at adoption.
- Specify the purposes for which the land, and any such buildings or improvements, will be allowed to be used.
- Specify the purposes for which any further development of the land will be permitted, whether under lease or licence or otherwise.
- Describe the scale and intensity of any such permitted use or development.

2.3 Categorisation and Objectives

As required by legislation for the purposes of the PoM, community land is categorised as one of the following:

- Natural Area
 - Bushland
 - Wetland
 - Watercourse
 - Escarpment
 - Foreshore
- Sportsground
- Park
- Area of Cultural Significance
- General Community Use

Once categorised, community land is also subject to specified objectives which are outlined in the LGA, and in this PoM (see Section 9).

2.4 Types of Plans

The LGA allows a PoM to cover one or multiple parcels of land.

Where multiple parcels of land are covered in one plan (Generic Plans), the LGA specifically states what needs to be included. Where a PoM covers one parcel of land (Specific Plans), like this Plan, there is greater detail on what has to be prescribed in the Plan. A Generic Plan sets the framework of how the land is to be managed. A Specific Plan clearly outlines precise management proposals.

PoMs for community land are periodically reviewed to enable changing social, economic and ecological conditions to be taken into account and consequently amendments to the Plan may occur.

This PoM for the Griffith City Council's Olympic Park will be its first.

3 SITE DESCRIPTION

3.1 Land Parcels

This Plan of Management covers Lot 5 Section 54 in Deposited Plan (DP) 758476 (see the area bounded with red in **Figure 2**) and lies within the Griffith City Local Government Area, in the Parish of Jondaryan, County of Cooper.

The property address of the Reserve is 1 Olympic Street Griffith 2680,

The northern boundary of the PoM is the Hillston - Griffith Railway corridor; the western boundary is a continuation of Olympic Park (into Lot 7 Section 54 DP 758476); the eastern boundary is the (unsealed) Ulong Lane; and the southern boundary is Olympic Street with associated car parking.

The total area of Lot 5 is approximately 1950m².

While not included in this PoM Reserve 85064 also includes the rest of Olympic Park and Banna Park, being Lot 7 Section 54 and Lots 19-20 Section 7 in DP 758476 respectively.

3.2 Ownership and Management

Olympic Park is on Crown land owned by the State of New South Wales. The land is subject to a Reservation for *Public Recreation* and *Community Purposes* under the *Crown Land Management Act* 2016 (CLMA), established on 23 October 1964. The additional purpose of Community Purposes was added to the Reserve on 15 July 2011.

All assets on the Reserve are owned by the State of New South Wales.

Council, as the *Council of the Shire of Wade* was first appointed trustee of the Reserve on 18 December 1964. Griffith City Council was later reappointed on 16 December 1994. Following various legislative changes in the management of Crown land, Griffith City Council is now Crown land manager of R.85064 for the purposes of the CLMA.

Section 3.21 of the CLMA authorises Council to manage the land as if it were public land within the meaning of the *Local Government Act* 1993 (LGA). Under the LGA, all public lands must be classified as either Community or Operational land and this land has been classified 'Community' land.

Crown land in Australia is subject to Native title under the *Native Title Act 1993* (Commonwealth). On Crown land Native title rights and interests must be considered unless:

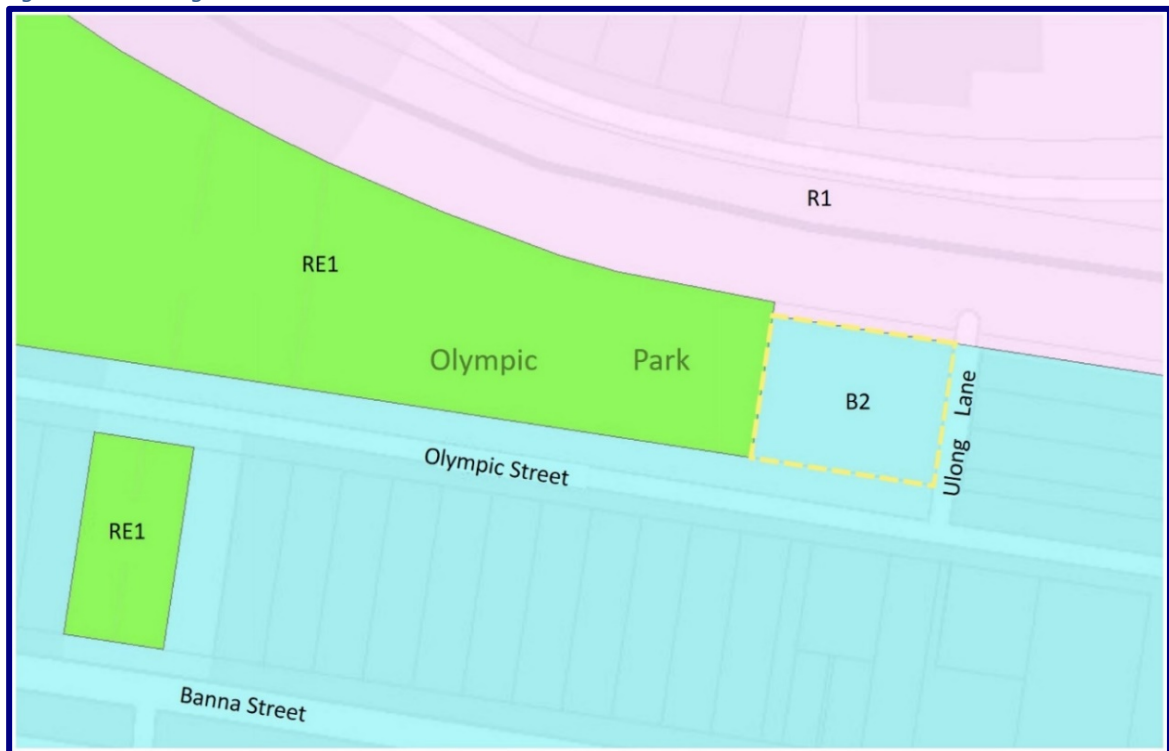

- Native title has been extinguished; or
- Native title has been surrendered; or
- Determined by a court to no longer exist.

Some examples of acts which may affect native title on Crown land or Crown reserves managed by Council include:

- the construction of new buildings and other facilities such as toilet blocks, walking tracks, tennis courts, grandstands and barbecues,
- the construction of extensions to existing buildings,
- the construction of new roads or tracks,
- installation of infrastructure such as powerlines, sewerage pipes, etc.,
- the issue of a lease or licence,
- the undertaking of major earthworks.

When proposing any act that may affect native title on Crown land or Crown reserves the act must be authorised through Part 2 Division 3 of the *Native Title Act 1993 (Cwlth)*.

Figure 3 - Planning Zones

4 PLANNING INSTRUMENTS AND POLICIES

4.1 Land Zoning

Under the Griffith City Council *Local Environmental Plan 2014* (GLEP), that part of Reserve 85064 consisting of Lot 5 Section 54 DP 758476 is wholly zoned B2 – Local Centre (See Figure 3).

The objectives of the B2 – Local Centre are:

- To provide a range of retail, business, entertainment and community uses that serve the needs of people who live in, work in and visit the local area.
- To encourage employment opportunities in accessible locations.
- To maximise public transport patronage and encourage walking and cycling.
- To ensure that the densities for commercial development reflect the needs of the local community and the capacity of the existing road and transport network.
- To generally conserve and enhance the business centre precincts by ensuring that new development integrates with the district urban scale, character, cultural heritage and landscape setting of those places.
- To enable development of land in this zone for residential purposes if adequate amenity will be provided for residents of residential buildings and the land will not be required for commercial or retail use.

Figure 3² shows that part of the Reserve consisting of Lot 5 Section 54 DP 758476 is zoned B2 - Local Centre, bounded in the west by RE1 Public recreation, and to the north by R1 General Residential.

Activities permitted without consent are:

- Environmental protection works,
- Home –based childcare, and
- Home occupations.

² Figure 3 is sourced from the Department of Planning, Industry and Environment's Planning Portal.

The following activities are permitted with consent:

- Boarding houses
- Centre-based childcare facilities
- Commercial premises
- Community facilities
- Educational establishments
- Entertainment facilities
- Function centres
- Information and education facilities
- Medical centres
- Oyster aquaculture
- Passenger transport facilities
- Recreational facilities (indoor)
- Registered clubs
- Respite day care centres
- Restricted premises
- Roads
- Service stations
- Shop top housing
- Tank-based aquaculture
- Tourist and visitor accommodation
- Any other development not specified in those permitted without consent, or not specified in those that are prohibited.

The following activities are prohibited:

- Agriculture
- Air transport facilities
- Airstrips
- Animal boarding or training establishments
- Bio-solids treatment facilities
- Boat building and repair facilities
- Boat launching ramps
- Boat sheds
- Camping grounds
- Caravan parks
- Cemeteries
- Charter and tourism boating facilities
- Correctional centres
- Crematoria
- Depots
- Eco-tourist facilities
- Electricity generating works
- Exhibition homes
- Exhibition villages
- Extractive industries
- Farm buildings
- Forestry
- Freight transport facilities
- Heavy industrial storage establishments
- Helipads
- Highway service centres
- Home occupations (sex services)
- Industrial retail outlets
- Industrial training facilities
- Industries
- Jetties
- Marinas
- Mooring pens
- Moorings
- Open-cut mining
- Pond-based aquaculture
- Recreational facilities (major)
- Research stations
- Resource recovery industries
- Rural industries
- Rural works' dwellings
- Sewage treatment plants
- Sex services premises
- Storage premises
- Transport depots
- Truck depots
- Vehicle body repair shops
- Warehouse or distribution centres
- Waste disposal facilities
- Water recreation structures
- Water supply systems
- Wharf or boating facilities
- Wholesale supplies.

4.2 Flood Planning

GLEP presents the objectives to considering flood planning in 7.2 (1):

- To minimise flood risk to life and property associated with the use of land.
- To allow development on land that is compatible with the land's flood hazard, taking into account projected changes as a result of climate change.
- To avoid significant adverse impacts on flood behavior and the environment.

Generally, due to its distance from the banks of the Murrumbidgee River, the city of Griffith does not experience significant mainstream flooding, although parts of the city, including this Reserve, are considered *flood prone*.

The flood hazard study completed in 2013³ allocates sub-areas to the CBD catchments for the purposes of identification and management of land units within the report. The *Junction of Wakaden and Ulong Streets* sub-area which contains the Reserve at Olympic Park indicates that at 1% AEP (100-year ARI), Low Flood Hazard and Low Provisional Hazard exists. These low hazard determinations are reflected within Council's Flood Report for Lot 5 which accounts for a 500mm buffer height to habitable building floor height.

4.3 State Environmental Planning Policies

The relevant part of Olympic Park is subject to the State Environmental Planning Policies below. Those that are considered more relevant to the future of the Reserve and this PoM are underlined below and briefly described in **Appendix 2**.

- State Environmental Planning Policy (Affordable Rental Housing) 2009
- State Environmental Planning Policy (Building Sustainability Index BASIX) 2004
- State Environmental Planning Policy (Exempt and Complying Development) 2008
- State Environmental Planning Policy (Housing for Seniors and People with Disabilities) 2004
- State Environmental Planning Policy (Infrastructure) 2007
- State Environmental Planning Policy (Mining, Petroleum and Extractive Industries) 2007
- State Environmental Planning Policy (Miscellaneous Consent Provisions) 2007
- State Environmental Planning Policy No1- Development Standards
- State Environmental Planning Policy No 21 – Caravan Parks

³ Griffith City Council, Griffith Major Overland Flow, Floodplain Risk Management Study and Plan for CBD catchments, WMAWater July 2013.

- State Environmental Planning Policy No 33- Hazardous and Offensive Development
- State Environmental Planning Policy No 36 – Manufactured Home Estates
- State Environmental Planning Policy No 50 –Canal Estate Development
- State Environmental Planning Policy No 55 – Remediation of Land
- State Environmental Planning Policy No 64 – Advertising and Signage
- State Environmental Planning Policy No 65 – Design Quality of Residential Apartment Development
- State Environmental Planning Policy (Vegetation in Non-Rural Areas) 2017.

4.4 Council Policies

Council has developed a number of plans and general policies which have either direct or indirect relevance to planning, management and maintenance of Community Land and Council Reserves. Of particular note;

- | | |
|--|--|
| • Griffith Land Use Strategy Beyond 2030 | • Complaints Management |
| • Griffith Land Use Strategy Plain English Summary | • Community Grant Program |
| • DCP No 19 Mixed Development | • Community Recognition |
| • DCP No 20 Parking (2011) | • Council Services - All Users to be Charged |
| • DCP No 22 Exempt and Complying Development | • Council Signage in Parks, Reserves and Pools |
| • DCP No 25 Public Notification | • Events Policy and Decision Tool |
| • Advertising - Signs | • Legislative Compliance Policy and Procedure |
| • Approvals - Fencing Adjoining Public Land | • Procurement Policy |
| • Asset Management Policy | • Smoke Free Outdoor Areas Policy |
| • Buildings - Distance from the Boundary | • Tender Consideration |

All relevant policies can be found at Council's website at www.griffith.nsw.gov.au.⁴

This PoM is consistent with these plans, strategies and policies.

4.5 Operating Approvals

The Reserve has no operating approvals issued under the LGA.

⁴ The majority of relevant policies appear in the references of this Plan.

5 THE PHYSICAL ENVIRONMENT

5.1 Topography, Hydrology and Drainage

The Reserve is flat, lies within the Main Drain J catchment and slopes very gently towards the south. Local run off drainage from the Reserve eventually accesses Murrumbidgee Irrigations water storage facility – Barren Box Storage, initially via street drains and constructed waterways. Drainage of the Reserve is good, assisted by reasonably freely draining soil materials (see soils section).

The following series of photos shows the Reserve at Olympic Park.

Figure 4 - Landform, Aspect and Vegetation

Note that there are no drainage works or sewer lines, or any other associated infrastructure within Lot 5.

5.2 Land Clearing and Modification

The history and the management of this small reserve mean that the original native vegetation is no longer present. It is likely that the original vegetation would have been a grassland interspersed with single or clumps of woody species such as the local *Eucalyptus* which still exist in some areas within the city boundaries, and in the neighbouring rural landscapes.

Currently, the Reserve carries a good cover of naturalised and introduced groundcover suitable for the current purpose of park, and two single mature trees straddling the northern boundary.

5.3 Soils and Geology

The soils of the Reserve are likely to closely reflect their alluvial floodplain origins. The upper floodplain soils in and around Griffith have been described mainly as red-brown texture contrast soils of considerable depth, known as Red Chromosols (Australian Soil Classification⁵).

Soils in this vicinity occur as well drained dark reddish-brown sandy clay loam topsoil, with a neutral to slightly acid PH (5.0 as measured in the field) overlying significantly more heavily textured reddish-brown medium clay at around 30-35 cm. This soil horizon generally has a PH of 7.0, though deeper in the profile amidst the heavier materials, bands and separate horizons of much lighter textured materials such as silty clays and even sands. Where clays exist at depth, they rarely exceed medium clay in texture, though may show very strong structure and PHs which can be as high as 8.5, and where free lime nodules exist. Overall, drainage of this soil profile is fair to good.

The layering of horizons of greatly different textures (clay to sands etc.,) down the soil profile, and the overall good depth of these soils which often exceed 3.5 m on the flats, supports the colluvial/alluvial floodplain origins of these soils. As the Griffith landscape slopes further to the south towards the Murrumbidgee River and west of the Reserve and Griffith City, soils tend to transition towards a range of more heavily textured cracking dark clays.

Soil profile descriptions recorded in the vicinity of Griffith are available on the NSW Office of Environment website: www.environment.nsw.gov.au/eSpadeWebapp//

5.4 Vegetation and Habitat

Because of the absence of significant woody vegetation at this Reserve (as previously described), the habitat values of Olympic Park are limited.

5.5 Biodiversity

Under the *LGA*, Council has obligations for conservation issues as determined by the *Biodiversity Conservation Act 2016*, and the *Fisheries Management Act 1994*.

The respective 10.7 Certificate contains no notation of any significant biodiversity issues present at Olympic Park. Section 7.3 of the GLEP and the accompanying map (Sheet BIO_ 004) shows that there is no significant Terrestrial Biodiversity.

5.6 Riparian Land and Watercourses

There are no named creeks or riparian lands on or in the immediate vicinity of Olympic Park.

⁵ The Australian Soil Classification, Revised Ed. RF Isbell 2002; *CSIRO Pub.*

6 THE SOCIAL ENVIRONMENT

6.1 Aboriginal Significance

A search of the Office of the Environment and Heritage AHIMS Web Services (Aboriginal Heritage Information Management System) did not reveal that:

- aboriginal sites are recorded in or near Olympic Park (1 km buffer)
- aboriginal places have been declared in or near Olympic Park (1 km buffer).

The GLEP details no items of known aboriginal archaeological sites, nor places of archeological or heritage significance at Olympic Park.

6.2 Heritage Significance

The relevant 10.7 Certificate indicates that no heritage items and controls exist at Olympic Park. This is supported by the GLEP's Heritage Map (HER_044A).

7 CURRENT USES

Olympic Park has been previously categorised as *Park* under Section 36 of the LGA through the initial categorisation process of Section 3.23 of the CLMA .

The core objectives for land which is categorised as a Park are:

- To encourage, promote and facilitate recreational, cultural, social and educational pastimes and activities, and
- To provide for passive recreational activities or pastimes and for the casual playing of games, and
- To improve the land in such a way as to promote and facilitate its use to achieve the other core objectives for its management.

In conjunction with adjoining lands which comprise part of Reserve 85064 local residents and visitors have ready access to the Reserve and opportunities exist for a range of passive activities including walking, exercising and resting.

Because of the relatively small size of Lot 5 (Olympic Park), and similar facilities nearby in adjoining precincts, there has been no required development of the park with physical infrastructure and landscaping which may enhance the passive uses in this way.

8 RESERVE ASSESSMENT

8.1 Assessment of Infrastructure

Other than several mature trees, a single rail treated-pine fence which separates traffic from the park on the eastern (Ulong Lane) boundary, and a well maintained and managed turf surface suitable for the current passive recreation, Lot 5 at Olympic Park Griffith has no assets.

The adjoining Lot 7 to the west which essentially provides a seamless continuation of the park, is similarly vegetated, and carries:

- a skate park
- a bicycle training facility
- a children's playground
- a basketball half court.

A ninety-degree car parking facility occupies the Olympic Street road reserve, providing a good access service to the park via road and vehicle.

8.2 Assessment of Management Needs

Management of the Reserve as park requires minimal inputs, restricted to mowing, slashing, gardening and fence maintenance as appropriate.

PART B – THE PLAN

9 A VISION FOR THE LAND

“A more beautiful, vibrant, healthy and sustainable city to experience.”

The Vision Statement for the management of community land at Olympic Park uses the vision statement from Griffith City Council’s *Griffith CBD Strategy*. This PoM considers the statement directly relevant to the future development and management of the Reserve (see below).

9.1 Scoping the Social, Economic and Physical Environment

The objectives outlined for land zoned in GLEP for B2 have been previously presented in 4.1. Those that are considered directly relevant to the future uses and developments at Olympic Park are:

- To provide a range of retail, business, entertainment and community uses that serve the needs of people who live in, work in and visit the local area.
- To encourage employment opportunities in accessible locations.
- To maximise public transport patronage and encourage walking and cycling.
- To generally conserve and enhance the business centre precincts by ensuring that new development integrates with the district urban scale, character, cultural heritage and landscape setting of those places.

Griffith City Council’s broad strategic intent in the management of central city lands is defined through its *Griffith CBD Strategy* ⁶adopted in 2015. This strategy seeks to rejuvenate the city centre, focusing on developing an attractive city that people want to live in, visit more frequently and visit for longer periods.

Broadly, this strategy acknowledged that current planning needs to recognise more strongly Griffin’s original thinking about the design of the city, upholding his ideals of a “walkable city, with wide tree lined boulevards with open space, and quality architecture”.

However, at the time, Griffin would not have been aware of the future of Griffith and surrounds as a strong multi-cultural centre. The robust developing irrigation history has been a contributing factor in attracting residents of many nationalities, in particular Italian, Sikh Indian, Afghan, Pacific Islander and Turk. Today, at least 60% of residents claim at least some Italian heritage. This diverse heritage and customs create a unique cultural tapestry, on which to capitalise through the future planning and use of the city’s community lands, including at Olympic Park.

It is also relevant that the *Griffith CBD Strategy* recommends a compatible plan for Olympic Park

⁶ [www.griffith.nsw.gov.au/Planning/Griffith CBD Strategy](http://www.griffith.nsw.gov.au/Planning/Griffith%20CBD%20Strategy).

which goes some way in addressing the strategy's "identified general lack of diversity of activities in Griffith's centre, which particularly cater for the elderly and youth".

As part of a key recommendation to "design great places in the city-centre, with a variety of activities", the strategy proposes a *Youth Precinct* at the park. This will create "hang-out spaces between recreational activities and promote interaction and socialising".

9.2 Management Directions

Council recognises the significance of the Reserve to the local and regional community and proposes the following management directions:

- To construct a Multi -Purpose Centre which is consistent with the zoning through the GLEP, adopted strategies (eg. *Griffith CBD Strategy*) in line with the current and emerging community needs of residents of both the Griffith City and region, and its many visitors.
- To provide a safe, attractive venue with equitable and convenient access by all people to the services it provides, and which also serves as an important component of a broader integrated and attractive precinct for the use of people from all ages and backgrounds.
- To ensure the spaces and facilities at the Reserve support the ongoing viability of community.
- To capitalise on fund earning opportunities consistent with legislation and policy, such that net operating and capital costs which provide essential services through the management of the Reserve, are reduced.
- To maintain and improve environmental values where present.

The current use as an open space is not ideal given it is adjacent to the railway and is not further required as these facilities are amply available nearby at:

- | | |
|---|---------------------------------------|
| • The adjoining section of Olympic Park | • The Burley Griffin community garden |
| • Banna Park | • CWA Park |
| • Memorial Park | • EW Moore Oval |
| • Kooragee Park | • McKirdy Park |
| • City Park | • Lions Park |

10 OBJECTIVES, CLASSIFICATION AND CATEGORY OF LAND

The Olympic Park at Griffith is classified as Community Land under the *LGA* as amended by the *Local Government Amendment (Community Land Management) Act 1998*.

Under Section 36(4), all Community Land must be categorised as one of the following categories:

- Natural Area - (further categorised as either Bushland, Wetland, Escarpment, Foreshore, Watercourse)
- Sportsground
- Park
- Area of Cultural Significance; or
- General Community Use.

The Core Objectives for all community land categories vary according to the categorisation of the land. All objectives are defined in Sections 36E to 36N of the *LGA* and also appear in Appendix 1, of this PoM.

In accordance with the guidelines set out in the *Local Government (General) Regulation 2005* and Practice Note 1: Public Land Management (Department of Local Government Amended 2000); and the derived management directions and planning principles presented above; land at the Reserve should be categorised as

- **General Community Use**

A categorisation of General Community Use will better reflect the current zone under the GLEP, the reservation purpose following the amendment in 2011 and will facilitate Council's objective to build a community use Multi-purpose Centre.

10.1 General Community Use

Relevant Core Objectives for management of community land categorised as **General Community Use** are to promote, encourage and provide for the use of the land, and to provide facilities on the land, to meet the current and future needs of the local community and of the wider public:

- (a) in relation to public recreation and the physical, cultural, social and intellectual welfare or development of individual members of the public, and
- (b) in relation to purposes for which a lease, licence or other estate may be granted in respect of the land (other than the provision of public utilities and works associated with or ancillary to public utilities).

Management Objective

The area identified as General Community Use will provide a multi-purpose centre for much needed community services including:

- Mental health services:
 - One door Mental Health
 - My Mind Matters
 - Marathon Health
- Volunteer migration services
- Alcoholics Anonymous
- Narcotics Anonymous
- The Griffith Carevan
- Al- Anon
- Narconon
- Debt recovery advice
- Country University services
- Children's Day Care Centre
- Anglicare
- Mission Australia
- Multicultural Disability Advocacy Association of NSW
- Kurrajong Therapy Plus
- Relationship Australia.
- LCN Op-Shop.

11 MANAGEMENT AND DEVELOPMENT OF THE RESERVE

11.1 Reserve Management

Council reserves the right to control the use of the Community Land including Olympic Park. However, to facilitate the establishment of the multipurpose centre, Council intends to:

- Issue a tender to design and construct the multipurpose centre.
- Lease the Centre and / or parts thereof to organisations providing services to the community.
- Create opportunities for community consultation and participation in the planning and development as required.
- Consider and attempt to balance the need for community facilities with the impact development that such a site will have on local businesses and residents.
- Ensure all formal use of the Reserve is authorised through appropriate documentation.
- Consider how use of the site can provide funding for the maintenance of the facilities for the Reserve.
- Facilitate a system whereby enquiries and complaints⁷ from the public can be efficiently and promptly dealt with.

11.2 Permitted Uses and Activities

The Reserve allows controlled access to the facilities which are open to the public.

Permissible Uses

Table 1 lists the permissible uses on the land subject to this Plan of Management with their scale and intensity.

Table 1 – Permissible Uses

Use	Scale	Intensity
Access roads	Limited to the physical constraints of the facility and/or to the requirements of the activity	24 hours a day, 7 days a week
Amenities	Limited to the physical constraints of the facility and/or to the requirements of the activity	24 hours a day, 7 days a week
Alternate energy technology	Limited to the physical constraints of the facility	24 hours a day, 7 days a week
Art and cultural classes and events	Limited to the physical constraints of the facility and/or to the requirements of the activity	24 hours a day, 7 days a week Subject to any Hire Agreement, Tenure and/or Development Application conditions for a specific event

⁷ Complaints in relation to the Reserve will be addressed consistent with Council's *Complaints Management Policy*.

Use	Scale	Intensity
Business Operations	Limited to the physical constraints of the facility	24 hours a day, 7 days a week subject to Tenure or Hire Agreement
Cafe	Limited to the physical constraints of the facility Agreement via tenure or hire agreement	Operating hours of the establishment subject to Council approval
Car parking	Limited to the physical constraints of the facility and/or to the requirements of the activity	24 hours a day, 7 days a week
Playing of games	Limited to the physical constraints of the facility	8.00am – 10.00 pm, 7 days a week subject to Tenure or Hire Agreement
Children's programs and events	Limited to the physical constraints of the facility and/or to the requirements of the activity	8.00am – 10.00 pm, 7 days a week subject to Tenure or Hire Agreement
Community events (fundraising/charity events, special events)	Limited to the hours the facility is booked Agreement via tenure or hire agreement	7 days a week, 8.00am – 10.00pm
Community Services	Limited to the physical constraints of the facility Agreement via tenure or hire agreement	24 hours a day, 7 days a week
Drainage	Limited to the physical constraints of the facility	24 hours a day, 7 days a week
Education Services	Limited to the physical constraints of the facility Agreement via tenure or hire agreement	24 hours a day, 7 days a week
Emergency use	Limited to the physical constraints of the facility and/or to the requirements of the activity	24 hours a day, 7 days a week
Filming and photography (commercial, amateur)	Limited to the physical constraints of the facility and/or to the requirements of the activity	24 hours a day, 7 days a week Subject to Tenure
Landscaping	Limited to the physical constraints of the facility	24 hours a day, 7 days a week
Licensed bar, bistro	Limited to establishments with a liquor licence	Operating hours of the establishment subject to Council approval
Maintenance buildings	Limited to the physical constraints of the facility	24 hours a day, 7 days a week
Paths	Limited to the physical constraints of the facility	24 hours a day, 7 days a week
Personal training	Limited to the physical constraints of the facility	Operating hours subject to Tenure or Hire Agreement
Playing of a musical instrument, or singing, for fee or reward	Limited to the physical constraints of the facility	Operating hours subject to Tenure or Hire Agreement
Private events (i.e. weddings, birthdays)	Limited to the physical constraints of the facility and/or to the requirements of the activity	Operating hours subject to Tenure or Hire Agreement
Public performance or education	Limited to the physical constraints of the facility and/or to the requirements of the activity	Operating hours subject to Tenure or Hire Agreement
Public utility infrastructure	Limited to the physical constraints of the facility	24 hours a day, 7 days a week
Remediation works	Subject to noise, workplace health and safety and relevant legislation	24 hours a day, 7 days a week
Sponsorship signage (temporary)	As per section	24 hours a day, 7 days a week
Storage facilities	Limited to the physical constraints of the facility	24 hours a day, 7 days a week subject to Tenure or Hire Agreement
Telecommunication facilities	Subject to relevant legislation	24 hours a day, 7 days a week

Use	Scale	Intensity
Temporary structures (i.e. marquees, tents, stages)	Limited to the physical constraints of the facility	Temporary structures (no pegs, weighted only)
Youth programs and events	Limited to the physical constraints of the facility and/or to the requirements of the activity	8.00am – 10.00 pm, 7 days a week subject to Tenure or Hire Agreement

It is an express provision of this PoM that Council shall provide from time to time as circumstances may require the construction and maintenance of utility services, provision and maintenance of floodways, cycle ways, vehicular access ways and the granting of easements.

11.3 Leases, Licences and other Estates

For this section please see the Explanation of Terms⁸ set out below.

The *Local Government Act 1993* provides that tenures (leases, licences, or any other estates) or easements may be granted over all or part of community land.

Tenures may be held by:

- community organisations and sporting clubs, or
- by private/commercial organisations or
- individuals providing facilities and/or services for public use.

The maximum period for leases and licences on community land allowable under the *Local Government Act 1993* is 30 years (with the consent of the Minister for a period over 21 years) for purposes consistent with the categorisation and core objectives of the particular area of community land.

Community land may only be leased or licensed for periods of more than 5 years if public notice is given according to the requirements of Sections 47 and 47A of the *Local Government Act 1993*.

Leases

A lease will be generally required where exclusive use or control of all or part of community land is desirable for effective management. A lease may also be required when the scale of investment in facilities, necessity for security measures, or where the relationship between a holder and facilities on community land justifies such security of tenure.

Leases issued by Council will require:

⁸ Explanation of Terms

Tenure – A lease, licence or other estate issued by Council in accordance with Section 46 of the *Local Government Act 1993* or Section 2.20 of the *Crown Land Management Act 2016*.

Holder – The company, organisation, individual or group of individuals who have been issued with a Tenure.

Hire Agreement – An estate issued by the Holder to the Hirer consistent with their Tenure.

Hirer – The company, organisation, individual or group of individuals who have been issued with a Hire Agreement.

- That subleases or any other supplementary tenures can only be issued by the Holders with the approval of Council, and consistent with Section 47C of the LGA.
- Maintenance of the facility will be the responsibility of the Lessees.

Licences

Licences allow multiple and non-exclusive use of an area. A licence may be required where intermittent or short-term use or control of all or part of the community land is proposed. A number of licences for different holders can apply to the same area at the same time, provided there is no conflict of interest.

Hire Agreements

An agreement for use of the land subject to this PoM may be issued by the Holder for any purpose consistent with Tenure conditions.

Purposes for which Tenures may be issued

In accordance with Section 46A of the LGA, a Plan of Management for community land is to specify and authorise any purpose for which a lease, licence or other estate may be granted over community land during the life of a Plan of Management.

This Plan of Management authorises a Tenure to be issued:

- for any permissible use in Table 1.
- for purposes consistent with the Reserve's:
 - categorisation (see Section 10.1), and
 - zoning (see Section 4.1) under Section 46 of the LGA, and
 - reserve purpose of Public Recreation and Community Purposes as required under the CLMA.

However, the CLMA allows that Council may also issue short term licences (for a period of less than one year) consistent with Section 2.20 of the CLMA. This section provides that licences may be issued, inconsistent with the reservation purpose, for prescribed purposes currently as shown in Appendix 3⁹.

Council may grant a lease, licence or other estate in respect of Community Land for:

- A purpose prescribed by Section 36I as a core objective of the categorisation of the land and subject to being consistent with the Reserve purpose; or
- For the provision of goods, services and facilities, and the carrying out of activities, appropriate to the current and future needs within the local community and of the wider

⁹ *Crown Land Management Regulation Section 31.*

public in relation to Public Recreation and Community Purposes.

A tenure or hire agreement on Crown land may impact native title rights and interests. Apart from the tenure/hire agreements authorised above¹⁰, which are valid acts under Section 24JA of the *Native Title Act 1993*, any use agreement issued on Crown land must be issued in accordance with the future act provisions of the *Native Title Act 1993* and in accordance with Part 8 of the *Crown Land Management Act 2016* unless native title is extinguished. For Crown land which is not *excluded land* this will require written advice from one of Council's native title managers that it complies with any applicable provisions of the native title legislation.

Council at any time in the future, reserves the right to prohibit the taking or consumption of alcohol on this Reserve. This will be indicated by conspicuously displayed signs in accordance with Section 632 and Section 670 of the *Local Government Act, 1993* (as amended).

Direction of Funds

Income produced from the Reserve will be distributed to manage community land in a fashion directed by Council.

¹⁰ This does not include Business Operations, Commercial Premises, Advertising (Business) or Storage (Business).

11.4 Allocation

The Reserve will continue to be used by a variety of user groups and individuals for purposes previously noted. Council will endeavor to generate greater utilisation of the Reserve for community purpose and other activities consistent with the Reserve's purpose.

11.5 Fees

Council applies fees for the use of Council reserves.

The fees associated with the hiring of Council reserves for major events, concerts, functions etc., are detailed in Council's Revenue Policy on Council's website. Council's fee structure is reviewed on an annual basis.

Where the Reserve is to be hired for a purpose not within Council's Revenue Policy, the fee will be set by Council.

11.6 Communication in the Management of the Reserve

Communication between Council, Holders, Hirers and Casual users is important to the success of this Plan. Council will establish and maintain clear lines of communication with Tenure holders and across all Reserve users, especially relating to the operations of and responsibilities within (proposed) tenure operations.

This will include:

- regular meetings between Council, Tenure Holders and regular hirers, and
- the establishment of the clear understanding that the multipurpose centre will be occupied on the basis of formal agreement.

11.7 Easements

Council reserves the right to grant easements as required for utilities and access, bearing in mind the impact of such easements on the site.

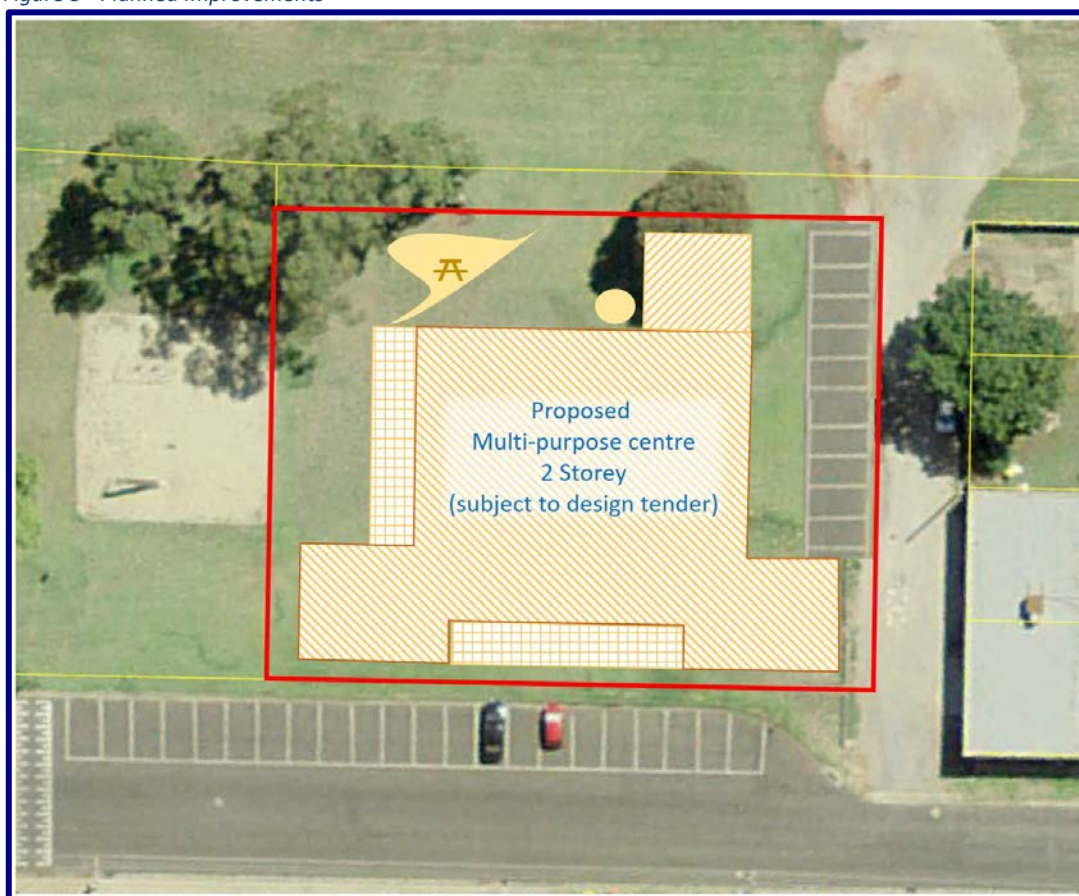

The granting of easements over Crown land will be subject to the provisions of the Native Title Act 1993 and Division 8.7 of the *Crown Land Management Act 2016*.

11.8 Development of New and Improvement of Existing Facilities

Council approval is required prior to any development or improvement made to Community Land.

All major developments and improvements to be funded (solely or partially) by Council will be subject to Council approval.

Figure 5 - Planned Improvements

Future improvements to the Reserve (see **Figure 5** for anticipated site coverage and **Figure 6** for artist's impression) will include:

- The construction of a new, accessible, double storey, fit for purpose, multifunction centre and associated infrastructure works aimed at accommodating the services described in Section 11.1.
- Required car parking to service the centre and the adjoining recreation reserve.
- Associated landscaping.

Where it is proposed to construct or establish a public work¹¹ on reserved or dedicated Crown land,

¹¹ A public work is defined as:

(a) any of the following that is constructed or established by or on behalf of the Crown, or a local government body or other statutory authority of the Crown, in any of its capacities:

- (i) a building, or other structure (including a memorial), that is a fixture; or
- (ii) a road, railway or bridge; or
- (iia) where the expression is used in or for the purposes of Division 2 or 2A of Part 2--a stock-route; or
- (iii) a well, or bore, for obtaining water; or
- (iv) any major earthworks; or

(b) a building that is constructed with the authority of the Crown, other than on a lease.

Major earthworks are defined as:

earthworks (other than in the course of mining) whose construction causes major disturbance to the land, or to the bed or subsoil under waters.

where native title is not extinguished, prior to approval Council will notify and give an opportunity for comment from any representative Aboriginal/Torres Strait Islander bodies, registered native title bodies corporate and registered native title claimants in relation to the land or waters covered by the reservation or lease as required under the *Native Title Act 1993*.

Figure 6 - Artists Impression of the proposed Multi – Purpose Centre

Where a proposed update of a Park Master Plan, Capital Works Program, Sportsground Action Plan, Sports Facilities Asset Management Plan or any other plan is the approving documentation for a public work on Crown land, that approval will not be given unless the requirements of the *Native Title Act 1993* have been addressed including the notification and opportunity to comment noted above.

11.9 Maintenance of Facilities

Council will ensure the facilities on the Reserve are maintained to an appropriate standard. It intends to:

- Maintain the structures and open spaces on the Reserve in accordance with Council's *Asset Management Plan Strategy* to measured targets within available resources.
- Monitor the condition of structures on the Reserve and ensure effective maintenance procedures are in place through tenure conditions.
- Prepare a safety audit of the site and repair or replace any areas that may impact on public safety.
- Ensure the efficient and conservative use of water, pesticides, herbicides and fertilisers across the Reserve, where required.
- Ensure regular collection of rubbish and elevate compliance activities against illegal dumping of rubbish.

- Council officers to continue monitoring for issues of compliance and general site amenity.
- Maintain existing drainage systems across the Reserve to minimise impact of flooding and waterlogging.

11.10 Signage

Council uses signs to regulate the activities carried out on Community Land and to provide educational information so as to provide a safe and enjoyable place for passive and active recreational pursuits.

Whilst signs are a crucial source of information, they have a significant impact on the aesthetics of a reserve. All signs must meet a design standard and be approved by Council. All signs must be sympathetic to their environment in their design, construction and location.

Council uses the *Statewide Mutual Best Practice Manual – Signs as Remote Supervision* for design of safety signage.

All signage must be placed in accordance with *State Environmental Planning Policy No 64 – Advertising and Signage* or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*. Signage must also be consistent with the *Griffith Development Control Plan* and the *Council Signage in Parks, Reserves and Pools Policy*.

Where a sign requires development consent, Council must approve as owner the lodging of a Development Application prior to assessment by Council in accordance with Schedule 1 Assessment Criteria of SEPP No 64.

Where a sign does not require development consent, Council must approve the sign before erection.

All Council signs erected under Section 632 of the *Local Government Act*, plus reserve name signs and traffic and safety signs, are permissible.

Proposed Signage

Council will ensure the following signage is on the Reserve:

- Construct suitable entrance area featuring descriptive signage.
- Directional signage for the purposes of guiding the community to required infrastructure and services.
- Signage for safety purposes including speed limitations and evacuation procedures.

12 FINANCIAL SUSTAINABILITY

Council anticipates that following construction of the multipurpose centre the land subject to this Pom will be self-funding through appropriate tenures.

During periods of vacancy Council will manage the Reserve through general revenue.

13 IMPLEMENTATION PLAN

Table 2 sets out a number of actions required to implement the identified Management Strategies and Performance Targets within the Reserve. These actions are the means of achieving the objectives of the PoM.

A clear indication of how the completion of the aims will be assessed is also provided in the table under Performance Evaluation.

Table 2- Implementation Table

Management Objectives	Management Strategies	Actions	Performance Evaluation (how they will be assessed)
GENERAL COMMUNITY USE			
<p>To promote, encourage and provide for the use of the land, and to provide facilities on the land, to meet the current and future needs of the local community and of the wider public:</p> <ul style="list-style-type: none"> in relation to public recreation and the physical, cultural and intellectual welfare or development of individual members of the public, and 	<p>A. Complete essential works in accordance with required approvals.</p>	<ol style="list-style-type: none"> Engage a suitably qualified consultant to design and construct a new accessible 2-storey multipurpose centre. Determine the appropriate Planning mechanism for the construction of the multipurpose centre, and associated carparking and landscaping under either Part 4 or Part 5 of the Environmental Planning & Assessment Act, 1979. Construct the multipurpose centre in accordance with the issued determination under either Part 4 or Part 5 of the Environmental Planning & Assessment Act, 1979. Issue new tenures for occupation of the multipurpose centre in accordance with Council's procurement requirements, relevant council policies and relevant legislation including the <i>Native Title Act 1993</i> 	<ul style="list-style-type: none"> Contract awarded for construction of multipurpose centre. Determination issued for multipurpose centre. Multipurpose centre constructed and occupation certificate obtained if determination is issued under Part 4 of the Environmental Planning & Assessment Act, 1979. All new works are completed in accordance with works plans. General Community Use area has attracted new holders and hirers. Feedback from holders, hirers and other users is positive. All new tenures for occupation are compliant with Council's procurement requirements, relevant council policies and relevant legislation including the <i>Native Title Act 1993</i>.

Management Objectives	Management Strategies	Actions	Performance Evaluation (how they will be assessed)
	B. Continue to manage and maintain new and existing assets with approvals as required to appropriate standards.	5. Ensure reserve is maintained where possible through appropriate tenure arrangements. 6. Ensure adherence to the Council's asset maintenance schedule. 7. Repair existing bitumen sections of Ulong Lane where it is used as vehicular access to the multipurpose centre. 8. Erect well marked entrance descriptive signage. 9. Carry out essential repairs to facilities.	<ul style="list-style-type: none"> Assets are managed in accordance with prescribed Council standards and community expectations. Improved environmental management outcomes. Grounds well maintained in accordance with use agreements and responsibilities, tidy, orderly and clean. Efficient signage, no confusion. Feedback from holders, hirers and other users is positive.
	C. Manage the land for improved and appropriate outcomes.	10. Ensure appropriate management of vegetated surfaces of the General Community Use area including mowing at suitable time intervals. 11. Ensure the efficient and conservative use of water, pesticides, herbicides and fertilisers across the General Community Use area, where required. 12. Ensure regular collection of rubbish. 13. Erect signage in accordance with Schedule 1 SEPP 64 and approved by Council.	<ul style="list-style-type: none"> Improved environmental management outcomes. Grounds well maintained in accordance with use agreements and responsibilities, tidy, orderly and clean. Efficient signage, no confusion. Feedback from holders, hirers and other users is positive.
	D. Monitoring and Compliance.	14. Continue to monitor the condition of structures on the General Community Use area and ensure effective maintenance procedures are in place through tenure conditions 15. Implement a safety audit of the General Community Use area and repair or replace any areas that may impact on public safety. 16. Ensure that the requirements of any lease or usage agreement are met. 17. Regular inspections by Council officers.	<ul style="list-style-type: none"> Audit processes for safety and asset condition reporting developed and working well. Tenures are well managed resulting in no complaints and showing desired cash flow. No confusion or inefficiencies regarding use and occupation exist. No illegal use and abuse of facilities.

Management Objectives	Management Strategies	Actions	Performance Evaluation (how they will be assessed)
	E. Capitalise on good relationships with holders and hirers and stimulate others towards greater use of the General Community Use area.	18. Council officers to continue monitoring for issues of compliance and general site amenity.	<ul style="list-style-type: none"> • Holders and Hirers are content with tenuring arrangements and plan is working well with all, including improved clarity and communication.
	F. Build relationships with existing and new users in order to draw more people to the General Community Use area, to maximise business and cash flow.	19. Establish appropriate tenure arrangements for existing and new users, at recommended/appropriate rent and hire fees. 20. Encourage a positive relationship between Holders and Hirers through the establishment of clear expectations, and communications. 21. Encourage Users, Hirers and other organisations to actively participate in the maintenance of the facilities they use, as per agreement. 22. Where necessary, develop guidelines to clarify and strengthen the requirement for user groups to maintain orderly and tidy surrounds at all times.	<ul style="list-style-type: none"> • Holders and Hirers are content with tenuring arrangements and plan is working well with all, including improved clarity and communication.

14 CONSULTATION DURING THE PREPARATION OF THIS PLAN

Community consultation is an important source of information necessary to provide an effective Plan of Management for Community Land and is a requirement under Section 38 of the *LGA*. As such, Griffith City Council is committed to the principles and activities within the participating community which guide Council's decision-making processes. Such participation creates the opportunity for interested parties to become actively involved in the development of a plan which reflects the needs, opinions and priorities of people using the Reserve.

Section 38 of the *LGA* requires that:

- Council must give public notice of a draft plan of management.
- The period of public exhibition of the draft plan must be not less than 28 days.
- The public notice must also specify a period of not less than 42 days after the date on which the draft plan is placed on public exhibition during which submissions may be made to Council.
- Council must, in accordance with its notice, publicly exhibit the draft plan together with any other matter which it considers appropriate or necessary to better enable the draft plan and its implications to be understood.

Council must also hold a public hearing as required under Section 40A of the *LGA*.

This plan is over Crown land and proposes a change in categorisation. The consent of the Minister for Water, Property and Housing is required under section 3.23(d)(i) of the *CLMA*.

Prior to formal commencement of this PoM, the public has been made aware of the Multi-purpose Centre proposal within:

- Council's newsletter, and
- Council's minutes.

15 APPENDICES

- 1) Core Objectives for Categories of Community Land.
- 2) Relevant State Environmental Planning Policies.
- 3) Prescribed purposes under the *Crown Lands Management Act 2016*.

Appendix 1

CORE OBJECTIVES FOR CATEGORIES OF COMMUNITY LAND (*Local Government Act 1993*):

36E Core objectives for management of community land categorised as a natural area

The core objectives for management of community land categorised as a natural area are:

- (a) to conserve biodiversity and maintain ecosystem function in respect of the land, or the feature or habitat in respect of which the land is categorised as a natural area, and
- (b) to maintain the land, or that feature or habitat, in its natural state and setting, and
- (c) to provide for the restoration and regeneration of the land, and
- (d) to provide for community use of and access to the land in such a manner as will minimise and mitigate any disturbance caused by human intrusion, and
- (e) to assist in and facilitate the implementation of any provisions restricting the use and management of the land that are set out in a recovery plan or threat abatement plan prepared under the *Biodiversity Conservation Act 2016* or the *Fisheries Management Act 1994*.

36F Core objectives for management of community land categorised as a sportsground

The core objectives for management of community land categorised as a sportsground are:

- (a) to encourage, promote and facilitate recreational pursuits in the community involving organised and informal sporting activities and games, and
- (b) to ensure that such activities are managed having regard to any adverse impact on nearby residences.

36G Core objectives for management of community land categorised as a park

The core objectives for management of community land categorised as a park are:

- (a) to encourage, promote and facilitate recreational, cultural, social and educational pastimes and activities, and
- (b) to provide for passive recreational activities or pastimes and for the casual playing of games, and
- (c) to improve the land in such a way as to promote and facilitate its use to achieve the other core objectives for its management.

36H Core objectives for management of community land categorised as an area of cultural significance

- (1) The core objectives for management of community land categorised as an area of cultural significance are to retain and enhance the cultural significance of the area (namely its Aboriginal, aesthetic, archaeological, historical, technical or research or social significance) for past, present or future generations by the active use of conservation methods.
- (2) Those conservation methods may include any or all of the following methods:
 - (a) the continuous protective care and maintenance of the physical material of the land or of the context and setting of the area of cultural significance,

- (b) the restoration of the land, that is, the returning of the existing physical material of the land to a known earlier state by removing accretions or by reassembling existing components without the introduction of new material,
- (c) the reconstruction of the land, that is, the returning of the land as nearly as possible to a known earlier state,
- (d) the adaptive reuse of the land, that is, the enhancement or reinforcement of the cultural significance of the land by the introduction of sympathetic alterations or additions to allow compatible uses (that is, uses that involve no changes to the cultural significance of the physical material of the area, or uses that involve changes that are substantially reversible or changes that require a minimum impact),
- (e) the preservation of the land, that is, the maintenance of the physical material of the land in its existing state and the retardation of deterioration of the land.

(3) A reference in subsection (2) to land includes a reference to any buildings erected on the land.

36I Core objectives for management of community land categorised as general community use

The core objectives for management of community land categorised as general community use are to promote, encourage and provide for the use of the land, and to provide facilities on the land, to meet the current and future needs of the local community and of the wider public:

- (a) in relation to public recreation and the physical, cultural, social and intellectual welfare or development of individual members of the public, and
- (b) in relation to purposes for which a lease, licence or other estate may be granted in respect of the land (other than the provision of public utilities and works associated with or ancillary to public utilities).

36J Core objectives for management of community land categorised as bushland

The core objectives for management of community land categorised as bushland are:

- (a) to ensure the ongoing ecological viability of the land by protecting the ecological biodiversity and habitat values of the land, the flora and fauna (including invertebrates, fungi and micro-organisms) of the land and other ecological values of the land, and
- (b) to protect the aesthetic, heritage, recreational, educational and scientific values of the land, and
- (c) to promote the management of the land in a manner that protects and enhances the values and quality of the land and facilitates public enjoyment of the land, and to implement measures directed to minimising or mitigating any disturbance caused by human intrusion, and
- (d) to restore degraded bushland, and
- (e) to protect existing landforms such as natural drainage lines, watercourses and foreshores, and
- (f) to retain bushland in parcels of a size and configuration that will enable the existing plant and animal communities to survive in the long term, and
- (g) to protect bushland as a natural stabiliser of the soil surface.

36K Core objectives for management of community land categorised as wetland

The core objectives for management of community land categorised as wetland are:

- (a) to protect the biodiversity and ecological values of wetlands, with particular reference to their

hydrological environment (including water quality and water flow), and to the flora, fauna and habitat values of the wetlands, and

- (b) to restore and regenerate degraded wetlands, and
- (c) to facilitate community education in relation to wetlands, and the community use of wetlands, without compromising the ecological values of wetlands.

36L Core objectives for management of community land categorised as an escarpment

The core objectives for management of community land categorised as an escarpment are:

- (a) to protect any important geological, geomorphological or scenic features of the escarpment, and
- (b) to facilitate safe community use and enjoyment of the escarpment.

36M Core objectives for management of community land categorised as a watercourse

The core objectives for management of community land categorised as a watercourse are:

- (a) to manage watercourses so as to protect the biodiversity and ecological values of the instream environment, particularly in relation to water quality and water flows, and
- (b) to manage watercourses so as to protect the riparian environment, particularly in relation to riparian vegetation and habitats and bank stability, and
- (c) to restore degraded watercourses, and
- (d) to promote community education, and community access to and use of the watercourse, without compromising the other core objectives of the category.

36N Core objectives for management of community land categorised as foreshore

The core objectives for management of community land categorised as foreshore are:

- (a) to maintain the foreshore as a transition area between the aquatic and the terrestrial environment, and to protect and enhance all functions associated with the foreshore's role as a transition area, and
- (b) to facilitate the ecologically sustainable use of the foreshore, and to mitigate impact on the foreshore by community use.

Appendix 2

STATE ENVIRONMENTAL PLANNING POLICIES WHICH ARE RELEVANT TO THE OLYMPIC PARK

State Environmental Planning Policy (Infrastructure) 2007

State Environmental Planning Policy (Infrastructure) 2007 provides that certain types of works do not require development consent under Part 4 of the *Environmental Planning and Assessment Act 1979* (EP&A).

Clause 20 of SEPP (Infrastructure) provides that a range of works are “exempt development” when carried out for or on behalf of a public authority (including Griffith City Council). These works are itemised in Schedule 1 of the SEPP and include paths and ramps for disabled access, fencing, firefighting emergency equipment, small decks, prefabricated sheds of up to 30m² in area, retaining walls up to 2m in height, landscaping including paving and access tracks, minor external and internal alterations to buildings, open car parks (size is not specified) and demolition of buildings covering an area of up to 100m².

Clause 65 of the SEPP (Infrastructure) provides that Development for any purpose may be carried out without consent on Crown managed land, by or on behalf of a Crown land manager of the land if the development is for the purposes of implementing a plan of management adopted for the land in accordance with the *Local Government Act 1993*.

Further, any of the following development may be carried out by or on behalf of a council without consent on a public reserve under the control of or vested in the council:

- (a) development for any of the following purposes:
 - (i) roads, pedestrian pathways, cycleways, single storey car parks, ticketing facilities, viewing platforms and pedestrian bridges,
 - (ii) recreation areas and recreation facilities (outdoor), but not including grandstands,
 - (iii) visitor information centres, information boards and other information facilities,
 - (iv) lighting, if light spill and artificial sky glow is minimised in accordance with the Lighting for Roads and Public Spaces Standard,
 - (v) landscaping, including landscape structures or features (such as art work) and irrigation systems,
 - (vi) amenities for people using the reserve, including toilets and change rooms,
 - (vii) food preparation and related facilities for people using the reserve,
 - (viii) maintenance depots,
 - (ix) portable lifeguard towers,
- (b) environmental management works,
- (c) demolition of buildings (other than any building that is, or is part of, a State or local heritage item or is within a heritage conservation area).

State Environmental Planning Policy (Exempt and Complying Development Codes) 2008

State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 (SEPP Exempt) provides that certain types of works do not require development consent under Part 4 of the EP&A Act. The General Exempt Development Code is set out in Division 1 of the SEPP, providing the limitations and conditions of the exemptions. They include:

- Access Ramps
- Advertising and signage
- Aerials, antennae and communication dishes
- Air-conditioning units
- Animal shelters
- Aviaries
- Awnings, blinds and canopies
- Balconies, decks, patios, pergolas, terraces and verandahs
- Barbecues and other outdoor cooking structures
- Bollards
- Charity bins and recycling bins
- Earthworks, retaining walls and structural support
- Fences
- Flagpoles
- Footpaths, pathways and paving
- Fowl and poultry houses
- Garbage bin storage enclosure
- Hot water systems
- Landscaping Structures
- Minor building alterations
- Mobile food and drink outlets
- Playground equipment
- Screen enclosures
- Sculptures and artworks
- Temporary uses and structures
- Waste storage containers

Section 1-16 of Division 2 of the SEPP provides the General Requirements for exempt development.

State Environmental Planning Policy (Miscellaneous Consent Provisions) 2007

The aims of the *State Environmental Planning Policy (Miscellaneous Consent Provisions) 2007* are as follows:

- to provide that the erection of temporary structures is permissible with consent across the State,
- to ensure that suitable provision is made for ensuring the safety of persons using temporary structures,
- to encourage the protection of the environment at the location, and in the vicinity, of temporary structures by specifying relevant matters for consideration,
- to provide that development comprising the subdivision of land, the erection of a building or the demolition of a building, to the extent to which it does not already require development consent under another environmental planning instrument, cannot be carried out except with development consent.

State Environmental Planning Policy No 64—Advertising and Signage

State Environmental Planning Policy No. 64 Advertising and Signage aims:

- to ensure that signage (including advertising):
 - (i) is compatible with the desired amenity and visual character of an area, and
 - (ii) provides effective communication in suitable locations, and
 - (iii) is of high-quality design and finish,
- to regulate signage (but not content) under Part 4 of the Act, and
- to provide time-limited consents for the display of certain advertisements, and
- to regulate the display of advertisements in transport corridors, and
- to ensure that public benefits may be derived from advertising in and adjacent to transport corridors.

This Policy does not regulate the content of signage and does not require consent for a change in the content of signage.

Appendix 3

Prescribed Purposes under the Crown Land Management Act 2016

Section 31 of the *Crown Land Regulation 2018* provides that short-term licences over dedicated or reserves Crown land may be granted under Sections 2.20 and 3.17 of the *Crown Land Management Act 2016* for the following purposes:

- | | |
|---|--|
| (a) access through a reserve, | (m) grazing, |
| (b) advertising, | (n) hiring of equipment, |
| (c) camping using a tent, caravan or otherwise, | (o) holiday accommodation, |
| (d) catering, | (p) markets, |
| (e) community, training or education, | (q) meetings, |
| (f) emergency occupation, | (r) military exercises, |
| (g) entertainment, | (s) mooring of boats to wharves or other structures, |
| (h) environmental protection, conservation or restoration or environmental studies, | (t) sales, |
| (i) equestrian events, | (u) shows, |
| (j) exhibitions, | (v) site investigations, |
| (k) filming (as defined in the Local Government Act 1993), | (w) sporting and organised recreational activities, |
| (l) functions, | (x) stabling of horses, |
| | (y) storage. |
