

Disclosure Log

In accordance with sections 25 and 26 of the *Government Information (Public Access) Act 2009* Griffith City Council ("the agency") must keep a record (called its "disclosure log") that records information about access applications made to the agency that the agency decides by deciding to provide access (to some or all of the information applied for) if the information is information that the agency considers may be of interest to other members of the public.

The information about an access application that is required to be recorded in an agency's disclosure log is as follows:

- the date the application was decided,
- a description of the information to which access was provided in response to the application,
- a statement as to whether any of the information is now available from the agency to other members of the public and (if it is) how it can be accessed.

No details are required to be recorded in the agency's disclosure log:

- if no objection is made under section 56 to the inclusion of information in the log before the access application is decided—until the application is decided, or
- if an objection is made under section 56 to the inclusion of information in the log before the access application is decided—until the agency is entitled under that section to include the information in the log.

An agency is not required to include in its disclosure log information about any application:

- for personal information about the applicant (the applicant being an individual) or any other individual, or
- in respect of which any factors particular to the applicant were otherwise a consideration in the agency's determination of the public interest in connection with the disclosure of the information to the applicant.

Disclosure Log

Application Number	Date of receipt of Application	Date of decision of Application	Description of information provided	Is the information publicly available and if so, how?

			Council? Identify the date and refer to documents, where necessary, recording the decision of Griffith City Council to impose a requirement that water contributions be made as a fee for development. Identify and supply the reports and/or working papers that were compiled and recommended the implementation of high security water and/or water by applicants for development by way of contribution in satisfaction of their development application as insisted and/or required by Griffith City Council. Provide the formula and/or rationale as to how the rate was arrived at for each new tenement in terms of calculating the water contribution required in respect of the development application submitted. Where does the Griffith City Council hold water entitlements as contributed by developers, not only in terms of the physical location but in terms of the records, where are the water entitlements so recorded and supply copies of those documents as requested? Provide details of all water accounts held by Griffith City Council at MI or State Water and further supply and identify the particulars indicative of the credits requested and received from developers upon submission of development applications and the approval with respect to those development applications. Supply all documents indicating and/or tending to show the trading figures for all water traded by Griffith City Council including temporary and trade, inclusive of town water and high security entitlements. Has Griffith City Council made any claim for Town Water from State Water to ensure that there is adequate allocation for growth strategies within the Griffith City Council area and in particular with respect to the Griffith City Council Growth Strategy Plan for the period 2000–2030?	information was withheld.

Disclosure Log

			The applicant seeks to have identified by the Agency both the Annual Financial Statements and notification from within those Annual Financial Statements the quantum of the income and where it has been disclosed on an annual basis in respect of megalitres sold on the temporary market, as requested in item 2 above. Identify and supply all documents from which Council holds and/or discloses high security water assets in its reports for both internal and/or public use together with access and further identify what value, given that these water rights or entitlements were acquired, albeit compulsorily and for nil value, as to what value is ascribed to those assets in the reports requested and identified to be produced. In respect of high security water entitlements transferred from land developments sold by the Agency (Griffith City Council) insofar as those high security water entitlements so transferred were then sold, please identify and supply details of: (i) the years in which they were sold; (ii) the amounts received; (iii) the megalitres sold in respect of those transactions. Identify and supply the initial transaction when the Agency commenced the practice of acquiring high security water entitlements as a condition of zoning approval and identify and nominate who was the Council President and/or Mayor at the time, together with copies of the Minutes of the meetings in respect of which it was resolved that high security water entitlements would be acquired as a condition for zoning development approval. Identify when the Agency realised and/or was advised and/or discussed that there was an inability on account of a lack of power for the Agency which lacked authority and/or the right to demand as a condition for the granting of development applications, the water entitlements that had been taken in the past as a condition for development and for the grant of a development application. It is further requested that the minutes of the meeting in which these matters were discussed be provided together with a copy of the

			advice received. In respect of the funds received from the sale of water acquired as a result of development applications being approved in consideration for the transfer of high security water entitlements, provide in detail how the funds from the sale of this water had been allocated and/or appropriated since the commencement of the sales of water received in consideration of the grant of development applications. Further, minutes of each appropriation and/or allocations of these funding receipts are similarly required to be provided. Identify and detail the process by which Council determines how, why, when and by which Agents are engaged together with the terms of such engagement, for the sale of the water and provide the documentation indicating the sale of the water rights in question by these agents. Further provide details of income paid to the agents. The Applicant requires details of Town Water Entitlements granted by the State Authority through Murrumbidgee Irrigation Limited or its predecessor, together with how the numbers were calculated, including dates, details of megalitres handed over in respect of areas zoned for proposed or future town residential development on a site by site basis for the period in question. Has the Agency ever requested additional Town Water Entitlements from the appropriate State Authority since the original entitlements were granted, as long ago as 1990 or thereabouts?
