GUIDELINES

SETTING COUNCIL'S FEES AND CHARGES

Council's fees and charges for the various goods and services it delivers are set out in detail within the schedule which follows this section.

When determining these fees and charges Council must consider the presence and/or influence of certain economic factors in addition to principles related to the setting of prices for goods or services. The following economic factors should be considered:

ECONOMIC FACTOR	DESCRIPTION
<ul style="list-style-type: none"> Public Good and the Exclusion Principle 	Council services may be provided free of charge in those circumstances where it is impossible or impractical to exclude users who do not choose to pay (free-riders).
<ul style="list-style-type: none"> Externalities 	Fees may be discounted to a level below the cost of a service where the production or consumption of the service generates external benefits to the community (hence creating a community service obligation) provided the cost of the discount does not exceed the estimated benefit.
<ul style="list-style-type: none"> Merit Goods 	Fees may be discounted to a level below the cost of a service if full cost recovery would prevent or discourage its consumption and the service is regarded as having particular merit to the welfare and well-being of the community (hence creating a community service obligation) provided the discount does not exceed the estimated benefit.
<ul style="list-style-type: none"> Natural Monopoly 	Where Council has a monopoly over the production of a good or service, prices should be set at a level to fully recover costs unless there are explicit community service obligations or equity objectives.
<ul style="list-style-type: none"> Capital Shortage 	Where Council produces a good or service, purely because of the unavailability of necessary capital, prices should be set at a level to fully recover costs and risk.
<ul style="list-style-type: none"> Consumer Protection and Safety 	Prices in respect of regulatory functions should be set at a level to fully recover costs unless there are explicit community service obligations or equity objectives.
<ul style="list-style-type: none"> Entrepreneurial Opportunities 	Where Council produces a good or service as a commercial pursuit, prices should be set a level to fully recover costs and risk.
<ul style="list-style-type: none"> Equity and Social Justice 	Fees may be discounted to a level below the cost of a service if it is a stated intention to subsidise the users because of equity or social objectives.

GOODS & SERVICES TAX

The following schedule of fees and charges has been prepared using the best available information in relation to the GST impact on the fees and charges at the time of publication. However, there may be fees and charges for which council is not able to confirm the GST status.

Accordingly if a fee that is shown as being subject to GST is subsequently proven not to be subject to GST, then that fee will be amended by reducing the GST to nil. Conversely if council is advised that a fee which is shown as being not subject to GST becomes subject to GST then the fee will be increased but only to the extent of the GST.

FEE JUSTIFICATIONS

The setting of Council's fees and charges has been justified utilising the following seven (7) pricing principles:

- Annual charges
- Fee for Service
- Cost Recovery
- Statute Limited
- Commercial Basis
- New Fee
- New Charge

Some fees and charges may be based on two (2) or more pricing principles. The principle used for each fee is included in the following schedule adjacent to each fee or charge.

Council has defined these categories as follows:

<i>PRICING PRINCIPLE</i>	<i>DESCRIPTION</i>
1. Annual Charges	This pricing principle relates to fees or charges which are charged on a once per annum basis. Their simple calculation and one-off nature allow the fee or charge to be raised annually.
2. Fee for Service (User Pays)	This principle is used where a specific individual cost can be isolated and charged to the user of the service. Here, the cost of the provision of the service is recovered from individual users.

PRICING PRINCIPLE	DESCRIPTION
3. Cost Recovery	Here, the fee or charge is set in order to recover Council's costs in the provision of the service. The costs or the provision the service must be able to be isolated to allow calculation. Fees or charges may be based on full or partial cost recovery dependent upon the nature of the fee or charge.
4. Statute Limited	These fees or charges are set by government regulation and thus the setting of these fees or charges is outside Council control.
5. Commercial Basis	This principle is applied to fees or charges whose setting may be affected by commercial or market factors. Here, Council considers market forces such as supply and demand and where the same or similar service is provided by private enterprise, the price charged by these private operators.
6. New Fee	These are new fees for the current year. They have not been raised or levied in previous years.
7. New Charge	These are new charges for the current year. They have not been raised or levied in previous years.

The following abbreviations are used throughout the schedule of fees and charges:

- Annual charges AN
- Fee for Service FS
- Cost Recovery CR
- Statute Limited SL
- Commercial Basis CB
- New Fee NF
- New Charge NC

Note for 2020/21 Fees & Charges Only

As per Council's resolution (20/133) at the extraordinary meeting held on 5 May 2020, some fees and charges in this Revenue Policy may be subject to a rebate and/or deferral.

2020/21 RATING STRUCTURE

ORDINARY (GENERAL) SERVICES

Proposed Rates for Increase of 2.6%

By virtue of section 494 of the Local Government Act, 1993, council is required to make and levy an ordinary rate for each year on all rateable land in its area.

Residential

Base amount charge - \$276.00 per rateable assessment

(25% of total yield) (-27% variation)

Ad Valorem Rate - \$0.006403 cents in the dollar based on the 2019 unimproved capital value of the property.

(75% total yield) (-7% variation)

Business

Base amount charge - \$283.00 per rateable assessment

(10% of total yield) (-32% variation)

Ad Valorem Rate - \$0.007969 cents in the dollar based on the 2019 unimproved capital value of the property.

(90% total yield) (-13% variation)

Farmland

Base amount charge - \$672.00 per rateable assessment

(30% of total yield) (69% variation)

Ad Valorem Rate - \$0.004348 cents in the dollar based on the 2019 unimproved capital value of the property.

(70% total yield) (-46% variation)

Farmland – Irrigable Intensive

Base amount charge - \$780.00 per rateable assessment

(25% of total yield) (-24% variation)

Ad Valorem Rate - \$0.005410 cents in the dollar based on the 2019 unimproved capital value of the property.

(75% total yield) (-42% variation)

Example of Residential Ordinary rates for 2019/20

(UCV (Unimproved Capital Land Value) x Ad Valorem Rate) + Base Rate
 = (80,000 x \$0.006403) + \$276.00
 = \$512.24 + \$276.00
 = \$788.24

Trade Waste Treatment Charge/kL	1.36	1.38	1.5%

Example Non-Residential Sewerage Charge for 2020/21**1. With No Trade Waste**

Assumptions:

*Water Consumption (C) = 500kl/annum

*Sewerage Discharge Factor (SDF) = 0.7

*20mm Water meter (AC) = \$486

*Sewerage Treatment Charge (STC) = \$1.72/kL

$$\begin{aligned}
 \text{Annual Bill} &= \text{AC} + (\text{C} \times \text{STC}) \times \text{SDF} \\
 &= \$486.00 + (500 \times 1.72) \times 0.7 \\
 &= \$486.00 + \$602.00 \\
 &= \$1,088.00
 \end{aligned}$$

2. With Trade Waste (Complying Category 1)

If the above example also had a trade waste discharge (of Category 1) with a:

*Trade Waste Discharge Factor (TWDF) = 0.5

*Trade Waste Administration Charge (TWAC) = \$108

*Trade Waste Usage Charge (TWUC) = \$1.38/kL

then the annual bill would be:-

$$\begin{aligned}
 \text{Annual Bill} &= \$1,088.00 + \text{TWAC} + (\text{C} \times \text{TWUC}) \times \text{TWDF} \\
 &= \$1,088.00 + \$108.00 + (500 \times 1.38) \times 0.5 \\
 &= \$1,088.00 + \$108.00 + \$345.00 \\
 &= \$1,541.00
 \end{aligned}$$

3. With Trade Waste (Complying Category 2)

If example number 1 also had a trade waste discharge (of Category 2) with a:

*Trade Waste Discharge Factor (TWDF) = 0.5

*Trade Waste Administration Charge (TWAC) = \$201

*Trade Waste Usage Charge (TWUC) = \$1.38/kL

then the annual bill would be:

$$\begin{aligned}
 \text{Annual Bill} &= \$1,088.00 + \text{TWAC} + (\text{C} \times \text{TWUC}) \times \text{TWDF} \\
 &= \$1,088.00 + \$201.00 + (500 \times 1.38) \times 0.5 \\
 &= \$1,088.00 + \$201.00 + \$345.00 \\
 &= \$1,634.00
 \end{aligned}$$

4. Non-Compliance Category 2 Trade Waste Discharge

If example number 1 is a non-complying Category 2 trade waste discharger with a:

*Trade Waste Discharge Factor (TWDF) = 0.5

*Trade Waste Administration Charge (TWAC) = \$201

*Non-Compliance Charge (NCC) = \$9.90/kL

then the annual bill would be:

$$\begin{aligned}\text{Annual Bill} &= \$1,088.00 + \text{TWAC} + (\text{C} \times \text{NCC}) \times \text{TWDF} \\ &= \$1,088.00 + \$201.00 + (500 \times 9.90) \times 0.5 \\ &= \$1,088.00 + \$201.00 + \$2,475.00 \\ &= \$3,764.00\end{aligned}$$

**Plant Hire Rates & Conditions
(Continued)**

Conditions of Plant Hire

The private hire of Council's plant will be subject to the following conditions:

- Work will be carried out at a time to suit Council's Works Programme and is subject to change without notice.
- Payment for the estimated hire period is to be made before work is commenced.
- Minimum hire period is of one (1) hour.
- Council will make a refund if hire period is less than estimated period. Subject to condition above.
- If requested, additional hire will be carried out. Payment for this additional work is to be made within seven (7) days of this work being completed.
- Hire rates are for total time on the site excluding lunch break.
- Details of work to be carried out must be given to the operator by the hirer unless special arrangements have been made.
- It is the hirer's responsibility to check and mark the location of any services or public utilities. Council will not accept liability for any damages to unmarked services etc.
- Plant requiring an operator will only be hired with an operator supplied by Council.
- All plant items, other than implements or those on daily or plant only rates, will be charged \$20.00 per hour for time worked outside normal hours.
- Plant hire rates do not include operator cost of **\$90**/hour.
