

	Do you have any issues with what is proposed?	If so, please provide your feedback:	Would a pool depth of 2.0M at deep end, tapering to 1.35M be a best option?	If you answered no, please provide your view on the ideal pool depth, tapered or reducing depth from deep end to shallow end.	Do you believe that the pool should be accessible for a wide cross section of the community including persons with a disability, elderly people, young people, competitive swimmers and those recovering from injury.	If you answered no, please provide your reasons as to why not:	Should there be a partial shade structure at the shallow end of the pool ie Wayeela Street end.	If so, what size shade structure and how much of the pool should it cover?	To meet regional standards, seating will need to be provided for at least 600 people. It is proposed that seating will be provided on the eastern side adjacent to the PCYC. Do you agree?	Should there be additional seating at the Wayeela Street end of the pool as well?	Stage 1 has the inclusion of one sheltered BBQ area. Should additional BBQ areas be considered either in Stage 1 or Stage 2 if there are insufficient funds for Stage 1?	Are there any other matters, suggestions or issues you would like to raise?
	0		1		1		1	6m x width of pool	1	1	1	no
	0		1		1		0		1	0	1	
	0		1		1		1	8m x width of pool	1	1	1	
	1	There was surveys and proposal put in previously, that where supposed to be released publically where are they	0	Seems at those depths no allowance is being made for a diving board and scuba lessons, no future proofing at all	0	Well that's yes and no, there are already 3 pools that are already adequate for that, but certainly a ramp entrance would assist for all those except competitive swimming	1	6m x width of pool	1	0	1	Yes in my submission I suggested making it possible to ice skate in winter, there have been Council's who have persued it, as an added future proofing would it be worth investigation to have the infrastructure ready for that in stage 2 or even 3
	0	I think there needs to be a real water splash park with water slides look at Yarrawonga holiday park at the water park they put in. It did cost close to \$1,000,000 but people will pay to use it. The Yarrawonga holiday park have people asking if they can just buy a day pass to use it.	0	Kids want to dive and jump into pools. Currently they get into trouble for jumping so the same will go for the out door pool if it's shallow	1	N/a	1	8m x width of pool	1	1	1	No
	0		1		1		1	6m x width of pool	1	0	1	It would be nice if the landscaping could be a priority as this is something the Griffith pool has always lacked. Shade trees and shrubs would make the outdoor space so much nicer particularly in summer.
	0		1		1		1	6m x width of pool	1	0	1	
	0	na	0	Too deep at shallow end	1	.	0	8m x width of pool	1	1	1	Shade should cover a majority of the pool
	1	A 10 lane wide pool is not a requirement for Regional Carnivals. 10 lanes would be ideal, however need to take into account the need for Disabled access allow one lane. Carnivals could be run using 8-9 lanes. This is as per the feedback and discussion items provided by GSC at previous meetings.	0	The suggested depths are okay as they will allow the shallow end to be utilised for learn to Swim and recreation. IF the aspirational plan is to eventually install a diving board then the 2.0m depth will be insufficient to do this safely. Also need to ensure that the shallow depth is sufficient to allow competitive race starts from blocks for relay events. As mentioned in the GSC feedback, to create a "fast" pool a consistent depth is ideal, however if GCC is wanting to appeal to the wider community then a tapered depth may be more suitable (alternative would be to install removable platforms whilst Learn to Swim is on - these are reasonably inexpensive to make/source). Also the slightly deeper pool could be used to attract water	1		0		1	1	1	
	0		0	Need to be deeper at one end to cater for a diving board	1		1	8m x width of pool	0	1	1	If the seating was on the eastern side you would be looking into the sun in the afternoon.

		Firstly, I have zero interest in a pool for competition. A public pool should be there for recreation, to cool off in the heat and provide a suitable place for families to visit. This should also have a diving board, because otherwise young people will continue to swim in Main Canal and jump off the bridges. Other water activities which should be encouraged include a replacement for the old water slide. There are adequate places for competition swimming in the region. Competition swimming is a minority activity compared to recreational swimming.										Seating for 600 people? Are you going to bus them in or park 150 vehicles in the area? With a business in the immediate vicinity I would not want any more parking problems in Wayeela and Olympic Streets. It is dangerous enough with the cars leaving the PCYC region in the evening now. It took us over 5 years to get the 40km/h zone in place, and now you want to maximise traffic.
	1		0				1	6m x width of pool	0	0	1	
	0		1		1		0		0	0	1	
	0		1		1		1	8m x width of pool	1	1	1	
	0		1		1		0		0	0	1	Bleacher seating would probably best not on the eastern side, since the afternoon sun could be a problem (shining in the faces of spectators, for example)
	0	.	1	.	1	.	1	6m x width of pool	1	1	1	.
	1	The proposed pool complex is in the wrong location. There is not enough land for open areas, lawn, BBQs etc; suitable sized facilities eg women's ONLY change room; safe parking. There should be provision for a permanent covered grandstand and sun shades for pool during times of high UV exposure.	1		1		1	8m x width of pool	0	1	1	The grandstand should provide protection from the western sun and wind
	0		1		1		1	8m x width of pool	1	1	0	Optimum seating and shade areas are my issues of interest, together with sufficient bathroom facilities, including PRIVATE change facilities for those not comfortable with changing in front of others. Thank you for this fantastic upgrade to our precious pool facility!
	0		1		1		1	8m x width of pool	1	1	1	
	1	The grandstands should face east not west. Otherwise kids will burnt facing the sun and make it really terrible facing directly into the sun,	0	A deeper pool should be considered as dicing boards should be reinstated.	1		1	8m x width of pool	0	1	0	I want to see the change rooms have some semi enclosed areas for privacy
	0		0		1		1	8m x width of pool	1	1	1	
	0		1		1		0		1	1	1	
	0		1		1		1	8m x width of pool	1	1	0	
	0		1		1		1	8m x width of pool	1	1	1	
	0		1		1		1	8m x width of pool	1	0	1	
	1	The existing site has inadequate parking availability. How is the council going to increase parking availability when it is already at a maximum during normal hours of occupancy? Ie. When I take my little ones to swimming lessons or go to the gym in the morning the car park is full, parking in Wayeela st and parking in Olympic st is full.	1		1		1	8m x width of pool	1	1	1	Parking is the big issue for me. Shading, seating and change rooms as already suggested is great.
	0		0		1		1	8m x width of pool	1	0	1	
	0		1		1		1	8m x width of pool	1	1	1	
	0	Agree	1		1		1	8m x width of pool	0	0	1	
	0		1		1		1	8m x width of pool	1	1	0	

	0	I'd like more Change room facilities & the out door pool to be heated if possible please	1	Can we have one depth of 2m through out?	1	This pool should be a competitive pool. The indoor pools can be the accessible one.	0	6m x width of pool	1	1	1	Room to have a picnic & a couple of BBQs would encourage usage. Is there any chance of a water park/slide area too please?
	0		1		1		1	8m x width of pool	1	1	1	
	1	Parking, needs more tourism attractions such as slide and more kids areas to play in	1		0	rehab can take place in the indoor pool	1	8m x width of pool	1	1	1	
	1	Poor choice of location.	1		0	The existing pools are excellent for rehabilitation, exercise classes and learn to swim etc The main reason for this pool should be recreational for the general public.	0		1	0	1	The lack of lawn area where families and friends groups can meet and socialise, have kids birthday parties, young groups meet etc just isn't available in this proposed area. This lack of area will severely impact on the amount of users. This will effect the financial takings of the pool. The location is far from ideal. You are all aware of this fact, yet seem determined to proceed against the general publics objections. Why do you call for public comment if you have no intention of listening? Your decisions have already been made.
	0	No	1	No	1	No	1	6m x width of pool	1	1	1	Ni
	1	The 50m pool is a waste if there is insufficient grandstand seating and dedicated car parking.	0	The public including children must be able to dive in at both ends.	1		1	6m x width of pool	0	1	1	Consider which way the grandstand faces and sun protection for spectators. For regional meets, consider marshalling areas and improvements/ additions to showers and change rooms. What additional recreation activities eg slides will be included?
	0		1		1		1	6m x width of pool	1	1	1	
	1	No additional change room or toilet facilities, requires at least as much extensors space for socialising too	0	Need a diving end too	1		1	8m x width of pool	1	1	1	Do not make it sub standard, make it world class
	0		1		1		1	8m x width of pool	1	1	1	
	0	Na	0	I think the depth should be greater to allow for diving	1	I am for all access areas, however I don't wish to have people who are in a wheelchair that traverses contaminated areas to just wheel their chair in to the pool. I think they should have a decontamination section for their wheels prior to entry.	0	6m x width of pool	0	1	1	This survey did not give enough options for comments. If you put the seating on the E facing end - then the people seated will be facing full sun for most of the day. Will there be ample shad for people other than swimmers?
	0		1		1		1	6m x width of pool	1	0	1	
	1	The pool positioning and location does not provide enough future proofing - the opportunity to expand is limited, the regional swimming seating and participant areas do not appear to reflect the requirements of a regional carnival. Also, with the population growth forecasted, should we not take into consideration of expansion for the community. This configuration appears it is as much as it can be IF the development can not extend over the current tenant PCYC site. Has there been enough consideration of the change room facilities required to be sufficient for regional carnivals?	1		1		1	8m x width of pool	1	1	1	Needs to have enough shade options for spectators and grass area. Retractable is an option to ensure can accommodate all weather conditions. Ensuring that there is enough cafe/canteen service options so that lines during carnival times are not extensive.
	0		1		1		1	8m x width of pool	1	1	0	

	1	The location of the pool is wrong. It should not be cramped in with the other indoor pool. GCC is building for the future not the past. Yes it will cost more to run two distinct site but the community deserves it. The lack of foresight of previous councils to remove the outdoor pool was disappointing so dont shoe horn a pool into this small area.	0	The deep end should cater for diving.	1	I didnt answer no	0	6m x width of pool	0	1	1	Public viewing areas on the eastern side of the pool will put people in direct sunlight. The seating should be on the Western side. Again this is due to a lack of area you are attempting to shoehorn these things in. Shaded areas should be above the pool but on the grounds. There should be room to have a shallow pool with shade for smaller children and parents. BBQ areas and beach volleyball courts should be included. The lac of space is disappointing even if you count in the aspirational idea of using the park over the road.
	0		1		1		1	6m x width of pool	0	1	1	why can't the seating be on the western side and not looking into the sun...that's how it used to be. buy out PCYC and pop in some extra BBQ areas and grass land on that site.
	0		1		1		1		1	1	1	People want value for money.
	0		1		1		1	8m x width of pool	1	1	1	
	0		1		1		1	8m x width of pool	1	1	0	
	0		1		1		1	8m x width of pool	1	1	1	
	0		1		1		1	8m x width of pool	1	1	1	
	1	a splash pad or slide for fun for families	1		0	you will not happily be able to cater for such a wide variety of groups.	0		1	0	0	
	0		1		1		1	8m x width of pool	1	1	1	
	1		1		0		1	8m x width of pool	0	1	0	
	0		1		1		0		1		1	I'd like to know about the length of the season for the use of the pool. Are there proposals to extend the season with the use of pool covers or heaters?
	0		0	3.5m	1		1	8m x width of pool	1	0	0	Parking
	1	Ensure room for spectators, seems wayto close to pcyc. Can pcyc be removed? Loses a lot of grass area	1		1		0		1	0	1	Look at other successful pools. There are smaller pools with shade, lost of bbq areas and plenty of space. I worry that there is not enough open space to accomodate the population of Griffith. As it is, the indoor part it cramped, would be nice for outdoors not to be so
	0		1		1		1	8m x width of pool	0	0	1	
	1	Grand stands suitable for the events similar capacity as previous 50 my pool										
	1	Suitable shade for expected use	0	No diving board	1		1		1		1	
	1		1		1		1	8m x width of pool	1	1	1	
	0		1		1		1	8m x width of pool	1	1	1	
	0	No issues	1	Answered yes previously	1	Did not say no	0	6m x width of pool	1	1	1	No
	0		1		1		1	8m x width of pool	1	1	1	
	1	Free swim areas available and not hogged for lap swimmers and squad training	1		1		1	8m x width of pool	1	1	1	Cost
	0		1		1		1	8m x width of pool	1	1	1	Diving board or a slide would be ideal.
	0		1		1		1	8m x width of pool	1	1	1	N/a
	0		1		1		1	8m x width of pool	1	1	1	

	1	In this day and age it seems ridiculous that we would be installing an outdoor pool instead of improving the existing indoor pool. Skin cancer and dehydration are real problems for swimmers. Just because a few loud members of the community who rarely use the facility voiced their opinions, your going to abandon best practices..... silly	0	If you are using this pool to train, there is not enough depth to safely tumble turn in the shallow end. Adult swimmers would find it difficult.	1		1	8m x width of pool	1	0	1	It is not clear what the purpose of this pool is, if it's used for squad and swimming laps, it needs complete shade and no need for disabled access etc. if it's for leisure, then it doesn't need spectator seating, lanes etc. you can't expect both to co-exist in the pool. This is the main reason the indoor pool is under utilised.
	0		1		1		1	6m x width of pool	1	1	1	
	0		1		1		1	6m x width of pool	1	1	1	A slide or a slash pad like the pool in maitland new castle would be amazing
	0	Looks like a good option to suit the scope	1		1		1	6m x width of pool	0	1	1	
	0	A 50m pool with less lanes will allow more open space and other facilities	1		1		0		1	0	1	50m pool is only one response to the site. Other activities should be considered such as beach volleyball, water slide, water play to get greater patronage.
	0		0	Need competitive diving option	1		1	8m x width of pool	0	1	1	Please look at pools in towns of comparable towns and determine what our community needs
	0		1		1		1	8m x width of pool	1	1	1	
	0		1		1		1	8m x width of pool	1	1	1	
	0		1		1		1	6m x width of pool	1	1	1	
	0		1		1		0		1	0	1	
	0		0	Deeper so that water polo can be introduced	1	Na	1	8m x width of pool	1	1	1	Would be wonderful if a splash park and infants fun water area be included in the future
	0		0	Needs a deeper section for kids to play	1		1	8m x width of pool	1	0	1	
	0	no	0	should be deeper for provisions of diving boards	1	n/a	0	6m x width of pool	1	0	1	there needs to be single showers not communal ones
	0		0	would prefer 2.25 to 1.5m	1		0		1	0	0	
	1	The site as it is is too small, unless Police boys is purchased and knocked down to allow for appropriate whole of community Pool facilities this project will double current losses from around \$1 million per year to \$2 million per year - as recommended in Council's Paid for Tredwell report to make this facility more sustainable it must incorporate recreation facilities, water slides, grassed areas, shaded areas, BBQ facilities, Grand Stand, far better and more car parking and more.	1		1	& recreation + tourism. Sporting events and Water slides.	1	6m x width of pool	0	0	0	Not enough room to do this properly as already said - need to purchase police Boys - and expand site to be a whole of community and tourism facility. Not shoehorned in without appropriate parking and access.
	0		1		1		1	6m x width of pool	1	0	1	With regards to the seating, please consider that instead of constructing such a large grandstand you may be able to leave space for temporary stands to be erected if and when required as long as this complies with the funding requirements.
	0		1		1		0		1	1	1	Ensure provisions for future upgrades and amenities exist to make them possible in the future (e.g., waterslide)
	0		1		1		1	8m x width of pool	1	1	1	
	0		1		1		1	8m x width of pool	1	1	1	
	0		1		1		1	8m x width of pool	1	1	1	Potential for social water sports to be added on as needed - e.g. water volleyball
	0		1		1		1	6m x width of pool	1	1	1	
	0		1		1		1	8m x width of pool	1	1	1	

		We do need pool area that is for public use, not just swim classes and rep swimmers. We need the public to be able to use the amenities at their leisure and not have to plan around the usage for swimming lessons and kids. Have a look at wagga's area, it has leisure parts with a wave pool and things for the general public. Griffith's children need something and somewhere to go. If you go to the pool currently it is overrun and swim lessons go till 7 pm at night. Not fair to the general public.										
	1		1	that is fine	1	we want a leisure center that can be used when suits and not have to work around swim lessons	0	6m x width of pool	0	1	1	Why would we need seating for 600 people. I think that is a space and money waste.
	0		1		1		1	8m x width of pool	1	0	0	
	0		1		1		1	8m x width of pool	1	0	1
