

## MESSAGE FROM THE MAYOR

Welcome back to the Community Catch Up. It has been a few weeks since we have had the opportunity to provide the community with this publication and we appreciate your support and patience.

Griffith has had a very busy couple of months, as has Council in particular. The community production of WICKED - The Untold Story of Oz opened to a sell out crowd during June and I think I speak for everyone when I say it was absolutely incredible. We are so lucky to have a passionate and dedicated team at Griffith Regional Theatre, who worked extremely hard to bring this production to life.

The level of talent within our community is outstanding - the local shows were easily as good - if not better - than anything seen elsewhere! Thank you to all who assisted to bring WICKED to Griffith and make it the raging success it was.

The upgrades for Mallee Park in Nericon are now complete and the park is well worth the drive to Nericon to explore. This is now a great recreational facility for all to enjoy for many years to come.

McKirdy Park has also been completed, turning a bare site into a place where you can gather with your family and friends to enjoy the outdoors.

Council has completed the works on time and within a \$1.85m budget and we were very proud to welcome the Premier of NSW, The Hon Gladys Berejiklian, MP to Griffith to open the roundabout at the end of last month.

While here, the Premier announced \$35M to upgrade Griffith Base Hospital - an announcement which was a long time coming and well overdue. Council has been lobbying the Government for many years to invest in the Base Hospital and it was great news to see they were finally acknowledging that the Base needed significant investment.

Unfortunately it came to light earlier this week that despite this commitment,

a decision had been made to remove the histopathology services from our hospital, leaving two employees with little options.

I have been working in the background to get to the bottom of what seems to be a decision made in isolation with no regard to how this would affect services to clinicians and residents. I will be meeting with the Minister for Health, Brad Hazzard when the Premier and Cabinet meet in Griffith during August.

Council fully and wholeheartedly supports Griffith Base Hospital and stands with Dr Jaya and Dr Hopp. Downgrading or moving of essential services away from Griffith is unacceptable and Council will do all it can to see services - and clinicians - remain in Griffith.

In positive news, the recent Business Audit conducted by Council showed Banna Avenue is experiencing resurgence in business activity.

A number of new businesses are setting up in the main street and shopfront vacancies have decreased to 17 from the 25 in 2016.

Yambil Street also experienced positive growth in the last twelve months, with 21 new businesses being established from the time of the last audit.

The results of the Business Audit are very encouraging and shows business confidence is on the rise. The rise in Yambil Street businesses also reinforces Council's resolve to continue with planned CBD upgrades which target Yambil Street in the first phase.
